SOCIAL ANTHROPOLOGY COURSES

Objectives

- i. To provide academic training in Social Anthropology at degree level, so that graduates can feed the various demands for social anthropologists in various sectors of society (academic, cultural, social, medical).
- ii. To enhance the academic study and promotion of African Social Anthropology as a corrective to Western Anthropology on Africa.
- iii. To provide academic training to graduates in order to preserve the rich history of the interlacustrine region of East Africa (publications, exhibitions, films, data-banks, etc).
- iv. To provide the expanding tourism industry with well trained personnel who can expose the rich cultural tradition of Uganda and East Africa in a professional manner.

Programme structure

Curriculum

In the first year of study students take three subjects including Social Anthropology. During the second year, students can either

major or minor in Social Anthropology where it is either combined with a Language, History or any other subject in the faculty of Arts. While all the first year Courses are compulsory, electives are offered both in the second and third years.

The course will last three academic years (six semesters).
