

YEAR III: Semester I		
SLT 3101	Community, Disability and Development	5
SLT 3102	Hearing Impairment and Deafness	4
SLT 3103	Teaching, Training and Learning Skills	4
SLT 3104	Cleft Lip, Palate and Tongue Tie	3
	TOTAL	16
Semester 2		
SLT 3201	Counseling Skills	3

SLT 3202	Dyfluency	3
SLT 3203	Developmental and Acquired Dysphagia	3
SLT 3204	Approaches for therapeutic intervention	4
SLT 3205	SLT Management	2
	TOTAL	15
	TOTAL YEAR 3	31

BACHELOR OF DENTAL SURGERY DEGREE (BDS)

Introduction

This is a five year course. Every academic year consists of two 17 week semesters and one 10 week recess term except the final year, which has no recess term. The course shall be governed by the general regulations and statutes of the University and in addition by regulations of the faculty.

Programme Structure Curriculum

Year I: Semester I		
Course Code	Course	CU
ANA 1101	Anatomy: Histology & embryology	2
ANA 1102	Anatomy of upper & lower limbs	4
PHY 1101	Physics Practical	5
BCM 1101	Introduction to Biochemistry I	4
PSY 111	Psychology I	4
FOM 1111	Introduction of Health Professionals Edu & Et	
FOM 1112	Cells and Tissues	
FOM 1113	Blood and Body Fluids	
FOM 1114	Principles of Nursing and First Aid	
Semester II		
ANA 1201	Thorax & Abdomen	5
ANA 1202	Pelvis and Perineum	1
PHY 1201	Physics Practical	5
BCM 1201	Introduction to Biochemistry II	4
SOC 1201	Sociology I	4

FOM 1202	Cardiovascular & Respiratory Systems	5
FOM 1203	Foundations of Behavioural Sciences	5
FOM 1211	Cardiovascular & Respiratory Systems	5
FOM 1212	Digestion Nutrition & Metabolism	5
FOM 1213	Foundation of Behavioural Sciences	5
Recess Term		
SOC 1301	Sociology II	2
PSY 1301	Psychology II	2
GEN 1301	Genetics I	1
PHC 1301	Introduction to Biostatistics	1
PHC 1302	Research Methodology	2
FOM 1311	Introduction to Community Health I	4
FOM 1312	Introduction to Community Health II	4
Year II: Semester I		
ANA 2101	Anatomy of Head and Neck	5
BCM 2101	Introduction to Medical Biochemistry I	4
PHY 2101	Physics Practicals	3
PSY 211	Descriptive Psychopathology	1
PHA 2101	General Pharmacology	4
MCB 2101	Microbiology I	4
PAT 2101	General Pathology	4
BDS 2112	Foundations of Dentistry	5
FOM 2111	Endocrine	5

FOM 2112	Reproductive and Urinary Systems	5
FOM 2113	Head and Neck	5
Semester II		
ANA 2201	Anatomy: Neuro Anatomy	4
BCM 2201	Introduction to Medical Biochemistry II	4
PHY 2201	Physics Practicals	3
PHA 2201	Chemotherapy & Cytotoxic Agents	4
PSY 2201	Physiology: Neurophysiology	3
MCB 2201	Microbiology II	4
PAT 2201	Systemic Pathology	5
BDS 2205	Dental Equipment & Procurement	2
BDS 2212	Central Nervous System	3
BDS 2214	Dental Equipment & Procurement	2
BDS 2215	Plaque	2
FOM 2203	Community & Diagnosis & Communication	3
FOM 2204	Material Science	5
FOM 2211	Principles of Microbiology & Pathology	5
FOM 2212	Neurolocomotor	5
FOM 2213	Community & Diagnosis & Communication	3
FOM 2214	Community Pharmacy & Practice I	3
Recess Term		
BDS 2311	Foundations of Dentistry II	5
PSY 2301	Psychotherapy/Counseling	2
MCB 2301	Microbiology III (Virology)	2
PAT 2301	Haematology	2
RAD 2301	Introduction to Radiology	1
ETH 2301	Introduction to Ethics	1
FOM 2312	Pathology & Development Body system & Disorders	4
Year III: Semester I		
BDS 3112	Cariology I	5
BDS 3113	Cariology II	5
BMS 3101	Principles of Surgery & Trauma	4
BMS 3102	Endocrine & Gastroenterology	4
BMS 3103	Special Topics in surgery	4
MED 3101	Clinical Medicine Theory	4
MED 3102	Clinical Medicine Methods	4

PHA 3101	Systemic Pharmacology (GIT/ Resp/Endocrine/CVS/Renal)	2
FOM 3111	Cardiovascular Respiratory Body system & Disorders	4
FOM 3113	Pharmacology & Therapeutics	5
Semester II		
PHA 3201	CNS Toxicology & Vitamins	2
BDS 3211	Oral Surgery and Diagnosis	5
BDS 3212	Oral Medicine and Oral Pathology	5
BDS 3213	Rehabilitative Dentistry	5
DEN 3201	Oral Biology I	4
DEN 3202	Dental Materials	4
DEN 3203	Dental Radiology	4
DEN 3204	Oral Pathology I	2
Recess Semester		
BDS 3311	Rehabilitative Dentistry I	4
PHC 3301	Introduction to Public Health	2
GEN 3301	Genetics-Clinical	1
BDS 3112	Oral Medicine I	4
ENT 421	ENT	2
EYE 421	Ophthalmology	3
ETH 331	Medical Ethics	1
PSY 3301	General Psychiatry	2
Year IV: Semester I		
BDS 4111	Clinical Medicine Relevant to dentistry	5
BDS 4112	Clinical surgery Relevant to Dentistry	5
BDS 4113	Conservative Dentistry I	5
DEN 4101	Conservative Dentistry I	5
DEN 4102	Community Dent I	1
DEN 4103	Oral Medicine I	2
DEN 4104	Complete Dentures	5
DEN 4105	Oral Biology II	2
DEN 4106	Oral Surgery I	1
FOM 4111	Cobes Project	5
Semester II		
BDS 4211	Oral Surgery II	4
BDS 4212	Rehabilitative Dentistry II	2
BDS 4213	Cobes-Investigative Project	4
DEN 4201	Conservative Dentistry II	5
DEN 4202	Periodontology I	2
DEN 4203	Oral Pathology II	2
DEN 4204	Partial Dentures	4

DEN 4205	Oral Medicine II	2
DEN 4206	Oral Surgery II	2
ENT 4201	Ent	2
EYE 4201	Ophthalmology	

Recess Term

This will be an elective period for all students who will be required to carry out a research project or have a practical experience in Dental Practice or Health services delivery institution. This is mandatory and will be assessed as Pass or Fail.

Course Code	Course	CU
BDS 4311	Oral Surgery III	5
BDS 4312	Orthodontics I	5
Year V: Semester I		
OGN 5101	Lectures in Obs & Gyn II	3
OGN 5102	Clinical Methods in Skills & Obs/Gyn II	3
OGN 5103	Obstetric & Gynecology Practice II	3
BDS 5111	Periodontology II	5

BDS 5112	Conservative Dentistry II	5
BDS 5113	Orthodontics II	5
DEN 5101	Oral Surgery III	5
DEN 5102	Orthodontics	4
DEN 5103	Periodontology II	2
DEN 5104	Community Dent. II	3
DEN 5105	Conservative Dent. III	5
DEN 5106	max-facial Prosth.	2
PCH 5101	Clinical Paediatrics Methods II	3
PCH 5102	Paediatrics & Child Health II	3
PHA 5101	Pharmacotherapeutics	3
PSY 5101	Clinical Psychiaitry	3
Semester II		
BDS 5211	Child Dentistry	5
BDS 5212	Oral Surgery IV	5
BDS 5213	Forensic Dentistry Jurusprudence Practice	
DEN 5201	Oral surgery IV	5
DEN 5202	Child Dental Health	5
DEN 5203	Comm. Dent. III	3
DEN 5204	Conservative Dent. IV	5

BACHELOR OF SCIENCE IN NURSING

Introduction

The BScN programme was established in the Faculty of Medicine at Makerere University in 1993, to prepare graduate nurses with competencies in Nursing, Midwifery, Primary Health Care and Research. The BScN Programme refers to Nursing education which incorporates both General Nursing and Midwifery. The programme emphasises application of all the Nursing Process as a framework for all Nursing, Midwifery and Primary Health Care practice at all levels of all health care delivery.

The main goal of the BScN programme is to improve the quality of health services for the community through higher education and integrated practice. This is on the basis that Nursing education and services play a vital role in the health care delivery in a country. The programme also aims at preparing a Nurse for meaningful functioning, as a team member, within the health care system.

Objectives

The overall aim of the degree programme is to educate and train nurses for the promotion of all aspects of health and elevation of standards

of Nurse-Midwifery practice in the country.

Specific objectives

Graduate nurses will be equipped with the knowledge, attitudes and skills to:

1. provide both basic and advanced nursing care to the community;
2. provide quality midwifery services;
3. manage common clinical conditions;
4. promote and practice Community-Based Primary Health Care (CBPHC);
5. provide quality leadership, management and administration within the health care delivery system and the community;
6. initiate, promote, support and conduct research in nursing and health related issues;
7. contribute to health policy formulation;
8. train nurses, other health workers and members of the village community;
9. advocate for the rights of their clients/patients and the Nursing Profession.
