

Year II: Semester II		
DMR 2201	Anatomy IV	5
DMR 2202	Physics III	4
DMR 2203	Radiographic Photography I	4
DMR 2204	Radiographic Technique II	5
DMR 2205	Ultrasound I	3
	Total	21
Recess Term Year II		
DMR 2301	Clinical Radiographic Practice II	5
DMR 2302	Elective I	4
DMR 2303	Research Project Report Writing	2
	Total	11
Year III: Semester I		
DMR 3101	Radiographic Equipment	5
DMR 3102	Radiographic Photography II	5
DMR 3103	Radiographic Technique III	5

DMR 3104	Ultrasound II	5
	Total	20
Year III: Semester II		
DMR 3201	Radiographic Equipment II	5
DMR 3202	Radiographic Photography III	5
DMR 3203	Clinical Radiographic Practice III	5
DMR 3204	Elective II	4
	Total	19

Key

- DMR – Diploma in Medical Radiography
- Course Codes starting with letter E refer to those courses common to all paramedical programmes and are centrally taught

DIPLOMA IN OCCUPATIONAL THERAPY

General Aim

The general objective of this diploma is to give special training to those who work with people with physical and Mental disabilities, and those suffering from chronic diseases in their homes/hospitals and facilitate the integration of rehabilitation care within their environment.

Objectives of the Programme

At the completion of the Diploma Programme, the learner will be equipped with the knowledge, skills and attitudes to:

- Integrate and use the holistic approach in resolving health problems of individuals and groups as regards to Occupational Therapy.
- Conduct relevant scientific research in Occupational Therapy and continuously improve their skills and knowledge using recent advances in their practice and participating in continuing professional development programmes.
- Liaise and co-ordinate with other health professionals and relevant agencies for the better delivery of rehabilitation services.
- Promote positive attitude of individuals and communities towards full

- participation of people with disabilities.
- Train other health workers, families and communities in the basic management of disability.
- Manage Occupational Therapy services and departments.
- Observe the professional codes of ethics.

Programme Structure

Year I: Semester I		
Course Code	Course Name	CU
EAN 1101	Anatomy	4
EPH 1102	Physiology	4
EFA 1103	First Aid & Nursing	3
EPC 1104	PHC & Communication Skills	4
ESM 1105	Socio-Psychology and Medical Ethics	3
EPM 1106	Principles of Pharmacology	3
	Total	21
Semester II		
DOT 1201	Introduction to Occupational Therapy	3
DOT 1202	Principles of Education	3
DOT 1203	Psychology I	4

DOT 1204	Practical Media I	4
DOT 1205	Clinical Placement I – Assessment	5
DOT 1206	Kinesiology	3
	Total	22
Recess Term Year I		
DOT 1301	Psychology II	3
DOT 1302	Clinical Science-Orthopaedics	3
DOT 1303	Clinical Science-Paediatrics	3
	Total	9
Year Two Semester I		
ERM 2101	Research Methods	4
EMA 2102	Management & Information Technology	4
DOT 2103	Clinical Science-Medicine	4
DOT 2104	Clinical Science-Psychiatry	4
DOT 2105	Practical Media II	3
	Total	19
Semester II		
DOT 2201	Research Project/Dissertation	4
DOT 2202	O.T. Treatment Models & Approaches	4
DOT 2203	Occupational Therapy in Mental Health	4
DOT 2204	Practical Media III	3

DOT 2205	Occupational Therapy in Paediatrics	4
	Total	19
Recess Term Year II		
DOT 2301	Clinical Placement II-Planning	5
	Total	5
Year Three Semester I		
DOT 3101	OT and Physical Dysfunction	4
DOT 3102	Orthotics and Assistive Aids	4
DOT 3103	Advanced Studies in Occupational Therapy	4
DOT 3104	Practical Media IV	3
DOT 3105	Clinical Placement III- Intervention	5
	Total	20
Semester II		
DOT 3201	Occupational/Activity Analysis	4
DOT 3202	Community OT and Counseling	4
DOT 3203	Case Studies/Reports	3
DOT 3204	Clinical Placement IV- Integration	5
	Total	16

DIPLOMA IN PHYSIOTHERAPY

Objectives of the Programme

On completion of the programme, the Physiotherapy graduate should be able to:

- Assess and evaluate patient/clients' physical ability, performance and progress.
- Promote health through health education and maintenance of physical fitness.
- Prevent muscle wasting, joint stiffness and loss of function.
- Treat pains and aches, strengthen weak muscles, and mobilize stiff joints.
- Functionally re-educate and rehabilitate the physically and mentally handicapped.
- Prevent and correct manageable deformities and contractures.

- Conduct referral of patient/clients or receive them as necessary.
- Conduct/participate in operational research.
- Counsel patients or clients as necessary.
- Observe the Professional code of conduct.
