

DOCTOR OF PHILOSOPHY

In addition to the regulations common to all faculties the following regulations apply:

1. The following shall be eligible for admission to the degree of Doctor of Philosophy programme:
 - (i) any Master of Science graduate of the University of not less than two years' standing
 - (ii) a Bachelor of Science graduate of the University of not less than two years' standing whom the Senate has specially exempted from the Master's examination.
 - (iii) a graduate of any other recognized university who has been admitted to the status of Master of Science in the University, and who has held the qualification by virtue of which such admission has been granted for not less than two years; or who has been admitted to the status of Bachelor of Science in the University and has held the qualification by virtue of which such admission has been granted for not less than three years and has been specially exempted by the Senate from the Masters examination.
2. A candidate for the degree shall be required to pursue at the university or at some other place approved by the Senate for the purposes of an approved course of special study of research on some subject connected with the mathematical, natural or applied sciences.
3. The Common Regulations for the degree of Doctor of Philosophy in all Faculties (1) to (14) shall also be of effect for the degree in the Faculty of Science.
A Bachelor of Science graduate of the University or, a person admitted to the status of the degree desiring to present himself as a candidate for the degree of Doctor of Philosophy in the Faculty of Science may expect to be registered as a candidate for the degree of Science for an initial period of one academic year, after which his desire to be registered as a candidate for the degree of Doctor of Philosophy will be reviewed by the appropriate University authorities.

DOCTOR OF SCIENCE

1. The following shall be eligible for admission to the degree of Doctor of Science programme:
 - (a) A Bachelor of Science graduate of the University of not less than six years' standing;
 - (b) A graduate of another recognized university who has been admitted to the status of Bachelor of Science in the University, and who has held the qualification by virtue of which such admission has been granted for not less than six years.
2. A candidate for the degree shall be required to submit for approval of the Senate outstanding published work on some subjects connected with the mathematical, physical natural or applied science.
3. No publications shall be accepted which are not works of distinction in their field and which do not make important contributions to learning.
4. Every submission for the degree must be accompanied by a declaration on the part of the candidate, satisfactory to the Senate, stating that it has not been offered for a degree in any other university.
