KEY

* Core courses, Compulsory for all Second Year Students

** Core courses, Compulsory for all Third Year Students

Core courses, Compulsory for all Students who major in Sociology

Note: Some courses in the second semesters of Second and Third Years of study have prerequisites that MUST be done in the first semesters respectively.

BACHELOR OF SOCIAL WORK AND SOCIAL ADMINISTRATION

1. Mission of the B.Swsa Programme

The mission of the B.SWSA Programme is to produce Social Work practitioners who are both development oriented and thoroughly grounded in theories and skills of social work practice, relevant to local and international standards. Within this mission, our vision is that the Department of Social Work and Social Administration should be an institution of excellence with a capacity of producing social service planners and service delivery personnel for a wide range of social development programmes.

1.2 Objectives Of The B.SWSA Degree Curriculum

The objective of the B.SWSA curriculum is to enable participating students to acquire two broad categories of professional competencies that the emerging practice situation in this country calls for. These competencies consist of the knowledge and skills required for practice at the macro and micro levels of society, both in service

delivery settings as well as in the industrial sector as detailed below.

(a) Objectives relating to Practice Competencies at Macro Levels

By the end of the B.SWSA training curriculum, the graduating students should possess the technical competencies that a Social Work practitioner requires in order to be in a position to enable communities, their constituent groups, individual levels and leaderships, to acquire capacities for self-help, which involves imparting to them skills in resource identification, resource mobilization and resource management; skills in the development and management of problem solving projects, and skills in leadership and organization, which skills are needed for both managing normal social situations and for dealing with disasters. Social Work students should also be able to study societal problems and lobby for policies and social programs to address those problems.

(b) Objectives relating to Practice Competencies at Micro Levels

By the end of the B.SWSA training curriculum, the graduating students should possess professional competence to perform the following general tasks:

- (i) Linking people to needed services available;
- (ii) Mediating conflicts at individual, family, community levels;
- (iii) Providing technical information to client systems for problem solving;
- (iv) Promoting advocacy services for the disadvantaged;
- (v) Enabling individuals and families to resolve or cope with the psycho-social problems they have internalized from their stressful circumstances, and
- (vi) To offer counseling services to individuals and families faced with interpersonal and intra-personal problems.

Programme Structure

Year I: Semester I (All course are Core)		CU
ECO 1101	Introductory Micro-Economics	4
ECO 1202	Introductory Macro-Economics	4
PSY 1101	Introduction to Psychology	4
RSD 1201	Religious in the Contemporary World II	3
SOA 1101	Contemporary Social Problems	4
SOA 1102	Principles of Social Research	4
SOA 1204	Statistical Tools for Research	4
SOC 1101	Introduction to Sociological Concepts	4
SOC 1102	Introduction to Social Anthropology I	4
SWA 1101	The Nature of Social Work	4
SWA 1102	Contemporary Social Problems	4
